

Conflict Prevention and Resolution Through IEP Meeting Facilitation

The class is designed to teach a process to enable teams to collaborate effectively while preventing and managing conflict. This ensures that the meeting content and process stays focused on the needs of the student.

Participants practice facilitation tools and techniques in actual simulations where trainers provide feedback and coaching in a safe learning environment. This way facilitators are prepared to implement the skills they've just learned the very next day.

LOCATION
Rogers Academy
109 Rogers Road
North Pekin
